Tour Of Dahlia Garden

The Concord Garden Club members visited the lovely dahlia garden of Mr. and Mrs. Edwin F. Schampel near Hollywood, in Appomattox County recently.

The many kinds and colors were of great interest and created a real inspiration.

Mrs. Schampel demonstrated how dahlias make beautiful arrangements for the home.

Hostesses for the club's regular meeting were Mrs. William Robinson and Mrs. Donald Johnston in the Robinson home. Refreshments were served before the business meeting.

GOOD NEWS FOR HOMEMAKERS

MINI-FYERS OFFER SMALL SAVINGS

The parade of mini-fryers on the market helps the small-portion user prepare deep-fried foods in just the right amounts. For those who enjoy fried delicacies--French fries,onion rings, shrimp -- the mini-fryers are ideal. They are round for easy cleaning and take up a minimum amount of space.

Most of the small fryers hold 2 to 3 cups of cooking oil. One recent entry is larger than the others and holds 4 cups of oil to accomodate larger portions. The applicances usually feature a single setting that automatically maintains proper temperature, snap-on plastic lid for storage, detachable cord, nonstick interior costing and heat-resistant handles.

Constructed of aluminum or steel, most of the units are black, decorated with chrome or aluminum trim. There is a brushed aluminum exterior, a two-tone brown acrylic exterior and another in colored lithographed metal. Each comes with a slotted spoon or lift-out basket. Other features available are an oil level marker and an edge bracket to hold the basket out of the oil. The heating element may be in the base or wrapped around the fryer.

It is important to read care instructions prior to using and cleaning a fryer. The unit should be washed with suds before use. Unless stated, never immerse a mini-fryer in water. Clean the fryer by partially filling it with warm sudsy water and washing it with a sponge or cloth. Rinse and dry thoroughly.

Shortening or cooking oil can be used a number of times. Additional oil should be added again before frying to maintain the proper level. Periodically, oil should be stained to remove any residue and the fryer washed frequently. Unplug the unit from wall outlet and allow it to cool. Then remove cord from the fryer. Pour oil into a container. Wash with a sudsy sponge or nylon scrubber, if necessary. The plastic cover and strainer spoon or basket can be washed in hot suds and rinsed. After drying thoroughly, place cover on fryer and store.

A few words of caution: Always cook with the cover off and never place cover on hot fryer or use plastic utensils in the hot oil.

RECIPE OF THE WEEK
Wonderful Oatmeal Cookies
1 cup shortening
1 cup brown sugar
1 cup white sugar
cream together.
